5th Latin-American Encounter of Food Design

Buenos Aires, Argentina | 9 - 13 Oct. 2017

EXTENDED DEADLINE FOR: Open call to participate in international exhibition STUDENT WORK IN FOOD DESIGN

We continue with the call for the exhibition: **Student Work in Food Design** to take place at the School of Architecture, Design and Urbanism of the University of Buenos Aires on October 9-13, 2017 as part of the **5th Latin-American Encounter of Food Design**.

This is the first time that student work coming from different countries and institutions relating to Food Design is shown together, making possible a cross section that puts into perspective and allows comparison of diverse pedagogies based on visible results.

We are looking for undergraduate and postgraduate projects related to Food Design, even if it is not termed as such. The goal is to give visibility and validity, as well as to connect institutions and people working in this

emerging transdiscipline, for which we call on existing projects resulting from workshops, programs and classes that relate to the theme. There is no limit as to how many projects can be presented, and the selection process is meant to give representation to the widest and most diverse contents possible. In this sense we will prioritize exhibiting the most emblematic work from greatest amount of institutions possible, yet limiting the amount of work from each entity so as to give a general idea of the directions and quality of pursuits in general.

Regarding the material, we accept any format it is already made in, including language, size and composition. We require that the professor leading the work, send the completed data sheet coming from all proposals, in English and/or Spanish, utilizing attached file.

Please send PDF files apt for printing (labeled with the professor's name, Ex: Paulini.pdf) along with the data sheet no later than: **September 15**

Send files (and questions) to:
argentina@lafooddesign.org
(for files larger than 10MB please use Wetransfer)

We await your participation with enthusiasm!

This exhibition is conceived and curated by the Latin American Food Design Network and organized by:
Pedro Reissig- Food Design x Education (USA)
Malena Pasin- CeProDiDe, FADU, UBA (Argentina)
Monica Silva- CEDIM (México)
